HI, I'M FREIA

A passionate and exploring multimedia designer with a flair for illustrations and prints.

At this moment I'm currently taking the education as a multimedia designer at EASV and I'm expecting to be done by the summer of 2025. During my education we're introduced to many thrilling programs, tasks and knowledge. But it's especially the illustrating and planning aspects that capture me.

As a designer I'm focused and thorough and I take pride in creating playful, illustrative and intricate work. Rather that may be prints, branding, packaging or maybe somewhat completely different.

If the case allows it, I normally seek inspiration in fauna and botanical life, as the organic yet calculated designs, captivating and inspiring.
